Hall Estill Cybersecurity & Data Privacy Attorney Collin R. Walke for the Daily Mail - Were your AT&T calls and texts leaked? Everything you need to know about massive data breach

Cybersecurity expert Collin Walke told DailyMail.com that the silver lining in the attack appears to be that 'no actual text content has been accessed.'

However, he warned people about the consequences of hacks like this, saying it should serve as a reminder to everyone that everything you do online leaves a digital footprint.

'The consequences of hacks like this ... should heighten our awareness to the problems we face in the future. This hack didn't access content, but we don't know when the next one will,' Walke said.

Collin R. Walke leads national law firm Hall Estill's Cybersecurity and Data Privacy practice. Prior to joining the firm, he served in the Oklahoma House of Representatives from 2016-2022 as the State Representative for House District 87.
