

Divorce & Legal Separation

From annulments to divorce, we are well-versed in all areas regarding divorce and legal separation. Working with the business, tax, litigation, securities, and estate planning practice groups, we handle both simple and complex domestic matters. Areas of practice within this arena include:

Child Custody & Visitation Rights

We work with clients to ensure the best interests of all children are met. Through interviews and court appearances, we make certain no stone is left unturned in these emotional matters.

Child Support

We believe it is important for our clients who have children under 18 years of age to receive the proper amount of child support entitled by law. Working with both parties, we are able to negotiate fair child support payments for their clients.

Division of Assets & Liabilities

We make every effort to ensure that clients' separate assets are identified and protected. In this arena, we offer clients the expertise of attorneys from multiple practice areas to address business and tax concerns which so often accompany marital dissolution.

Spousal Support & Alimony

We realize spousal support and alimony can be a great discourse among couples who are separated or divorced. We work to obtain the most full and fair amount of spousal support and alimony available.
