

Real Estate Finance

When financing or making equity investments in commercial real estate you need a team of lawyers who can handle the full life cycle of financings and investments. Hall Estill attorneys have the experience needed to guide you through every step from originations to sales and securitizations to workouts and foreclosures.

We assist both borrowers and lenders with their transactions. For borrower clients we are able to analyze financing options, negotiate term sheets and manage the closing process. We can also counsel lenders on loan transactions, advising on underwriting questions and securing debt as the deal makes it way to closing.
