Hall Estill Cybersecurity & Data Privacy Attorney Collin R. Walke for CNN Affiliates - Collin Walke was featured on CNN Newsource which aired across hundreds of markets around the country as a top expert in data privacy.

Cyber-security partner, Collin Walke, at Hall Estill Law Firm said cell phone users are more vulnerable than they think, and the recent hack should serve as a wake-up call to keep their information safe.

“Everybody should be concerned about everything they do that is connected to the internet,” said Walke. “You’re creating a footprint of who you are,” adding that users have become too lax.

He said the first thing you can do to lower your risk of your information being gathered is to limit the amount of apps on your devices.

“Every single app you download, you should seriously consider not downloading,” Walke said. “Every one that you download, you’re increasing the threat surface, the number of opportunities that an individual has to hack you.”

Collin R. Walke leads national law firm Hall Estill’s Cybersecurity and Data Privacy practice. Prior to joining the firm, he served in the Oklahoma House of Representatives from 2016-2022 as the State Representative for House District 87.
