Regulatory Compliance

Our clients receive our counsel in complying with the myriad environmental laws and regulations issued by federal, state and local environmental agencies. We provide support in regulatory compliance, including enforcement defense, permitting, rulemaking and compliance evaluation/planning/auditing.

We assist with negotiation and preparation of responses to Notices of Violation, Notices of Deficiency, Administrative Penalty/Compliance Orders, Consent Orders, Settlement Decrees and rulemaking proposals. When our clients are faced with allegations of environmental non-compliance, we provide vigorous defense while searching for practical resolutions.
